DETAILED ACTION

This action is responsive to applicants' terminal disclaimer and response received August 4, 2004. Claims 1-46 are currently pending.

Double Patenting

The examiner acknowledges receipt of applicants' terminal disclaimer, however, as the claims at hand are identical to those of US 6,635,613, a double patenting rejection under 35 USC 101 should have been made in the first office action and must now be made in this action. The double patenting rejection made in the first office action was in error, and the examiner apologizes for any inconvenience this has caused applicants.

1. A rejection based on double patenting of the "same invention" type finds its support in the language of 35 U.S.C. 101 which states that "whoever invents or discovers any new and useful process ... may obtain a patent therefor ..." (Emphasis added). Thus, the term "same invention," in this context, means an invention drawn to identical subject matter. See *Miller v. Eagle Mfg. Co.*, 151 U.S. 186 (1894); *In re Ockert*, 245 F.2d 467, 114 USPQ 330 (CCPA 1957); and *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970).

A statutory type (35 U.S.C. 101) double patenting rejection can be overcome by canceling or amending the conflicting claims so they are no longer coextensive in

scope. The filing of a terminal disclaimer cannot overcome a double patenting rejection based upon 35 U.S.C. 101.

2. Claims 1 and 3-46 are rejected under 35 U.S.C. 101 as claiming the same invention as that of claims 1-44 of prior U.S. Patent No. 6,635,613. This is a double patenting rejection.

Claim Rejections - 35 USC § 112

3. The following is a quotation of the second paragraph of 35 U.S.C. 112:

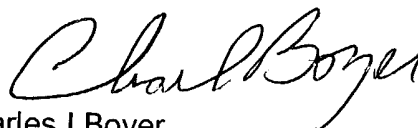

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

4. Claim 2 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. Claim 2 fails to further limit claim 1 as a urea phosphate is already present in claim 1.
